## OPERATING INSTRUCTIONS

The AC2 module allows you to control the volume of any personal audio player that has an earphone socket. To operate the Keypad controller simply press the flexible buttons. To operate the Joystick controller toggle the flexible stick upwards or downwards to control the volume. Push the Joystick in the centre to mute the music.

1. Switch on the audio player and start the music using the audio player's controls.
2. Adjust the audio player's volume to about 3/4 of the full volume (just so its not too loud..you can adjust it later if required).
3. To activate the CONNECTED-wear Keypad or Joystick **press the VOLUME + button once.**
4. The Keypad or Joystick is now activated to control the volume.

**VOLUME +** Press to increase the volume.

**MUTE** Press to mute or un-mute the music.

**VOLUME -** Press to decrease the volume.

## CARE INSTRUCTIONS

Please follow the garment manufacturer's care instructions listed on the apparel item. **DO NOT WASH OR DRY CLEAN THE AC2 MODULE.** Disconnect and remove the AC2 module from the garment before cleaning. After washing, ensure the Keypad and Joystick controllers are thoroughly dry before use.

**Do Not Wash  
AC2 Module**
